February 8, 2018

Dear Parent,

I am writing to inform you of a wonderful opportunity that we are offering to a limited number of second and third grade students. The Center for Architecture, Learning by design will conduct an 8 week afterschool program that we are able to offer through a grant. This program costs over \$200 a child. Children may participate for a fee of \$25.

Since the number of students who may participate is limited, students who qualify will be put into a pool and selected randomly. The 2nd-3rd grade program will begin on Monday February 26 and will run for 8 weeks from 3:15-4:45 pm on February 26, March 5, 12, 19, 26, April 9, 16, 23. The program will introduce students to thinking about buildings from the new perspective of a designer. A series of hands-on design challenges and activities will expose students to new architectural vocabulary, concepts and design techniques, which they will employ to analyze existing examples of architecture and to create their own architectural designs. The 2nd-3rd grade program will focus on Places We Live, including the residential architecture of the students' own neighborhood, tying into their study of the local community, as well as other building types from other environments such as animals' homes and habitats.

If you would like your child to be considered for this program please send the form below back to Holy Angels by Wednesday, February 14.

Sincerely,

Rosemarie McGoldrick
Principal
