

1ST AND 2ND GRADE ART CLASS

ASSIGNMENT:

Fun with Frogs!

How to Draw a Frog

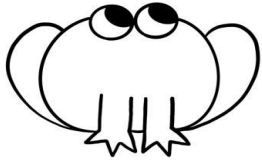

Start in the middle of the paper!

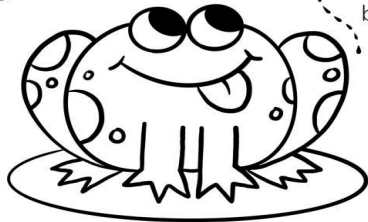

1. Draw two circles for eyes, then add two smaller circles inside the larger circles. Just below the eyes, draw two legs with webbed feet. (I tell the kids to draw two straight lines, then join them together on the bottom to make one leg.)

2. To make the body, draw a half circle from the left eye to the left leg. Then a half circle from the right eye to the right leg. Add a small line in-between the legs to connect the body.

3. Start a curved line 3/4 up the side of the body, and draw down to the bottom of the frog. Repeat on the other side to add the legs of the frog.

4. Add webbed feet, a lily pad, mouth, tongue, and spots for your frog. You can also add a delicious bug or two if you'd like.

You can use this guide for the DSS *Frog Prince & Fantastic Frogs* lessons!

ASSIGNMENT INSTRUCTIONS:

Next: Follow the instructions below on how to draw your very own frog!

ASSIGNMENT INSTRUCTIONS:

Now that you have finished reading the instructions,

draw your very own frog and submit it!

HERE IS A SAMPLE FROG. YOU MAY COLOR YOURS HOWEVER YOU LIKE.

DETAILS

After drawing the frog, you might like to add a lily pad, a horizon line and water plants. Flies and bugs are fun to add too, as are long, slimy tongues.

I THINK WE'RE DONE!

Take a photo of your artwork and send it to my school email address.

I would love to see your masterpiece.
